KL/KM: Chain Rails from Brass to Aluminium*

- 1= infeed prick roller
- 2= distribution block
- 3= chain wheel
- 4= guiding rail
- 5= aluminium chain rail
- 6= lubrication can

DESCRIPTION:

The chain rail provides an exact foil infeed and transport across the machine

YOUR ADVANTAGES:

- ▶ **Original KIEFEL- retrofit kit** ensures 100% compatibility and easy installing
- ▶ **Lower purchase price** in comparison with brass chain rails
- ▶ **Uncomplicated retrofitting** = the retrofitting kit contains aluminium chain rails and wearing parts
- ▶ **Quicker availability** when exchanging the aluminium chain rails
- ▶ **Higher rigidity** ensures less distorting
- ▶ **Improved longevity** by using guide rails (optional)
- ▶ **Automatic chain lubrication** that can be ordered optional
- ▶ **Long lifetime** of chain rails

* Aluminium chain rails can be retrofitted on many KIEFEL KL- and KMD- machines.

We would be pleased to make a quotation according to your machine.
To provide best assistance please mention your machine type and ID-number.
