

- + Longevity and robustness
Cast steel tables and yokes, toggle drives with **needle bearings**
- + Precision and repeatability
Cutting station and BFS forming station with tension bars for Kiefel **KISS-CUT**
- + Efficiency and sustainability
Film temperature measurement with **closed loop temperature control**, drives with **energy recovery** system
- + Process control and product quality
Forming station with **3rd motion servo plug drive** for ideal material distribution

Reliable infeed, optimum product quality

Full control, maximum efficiency

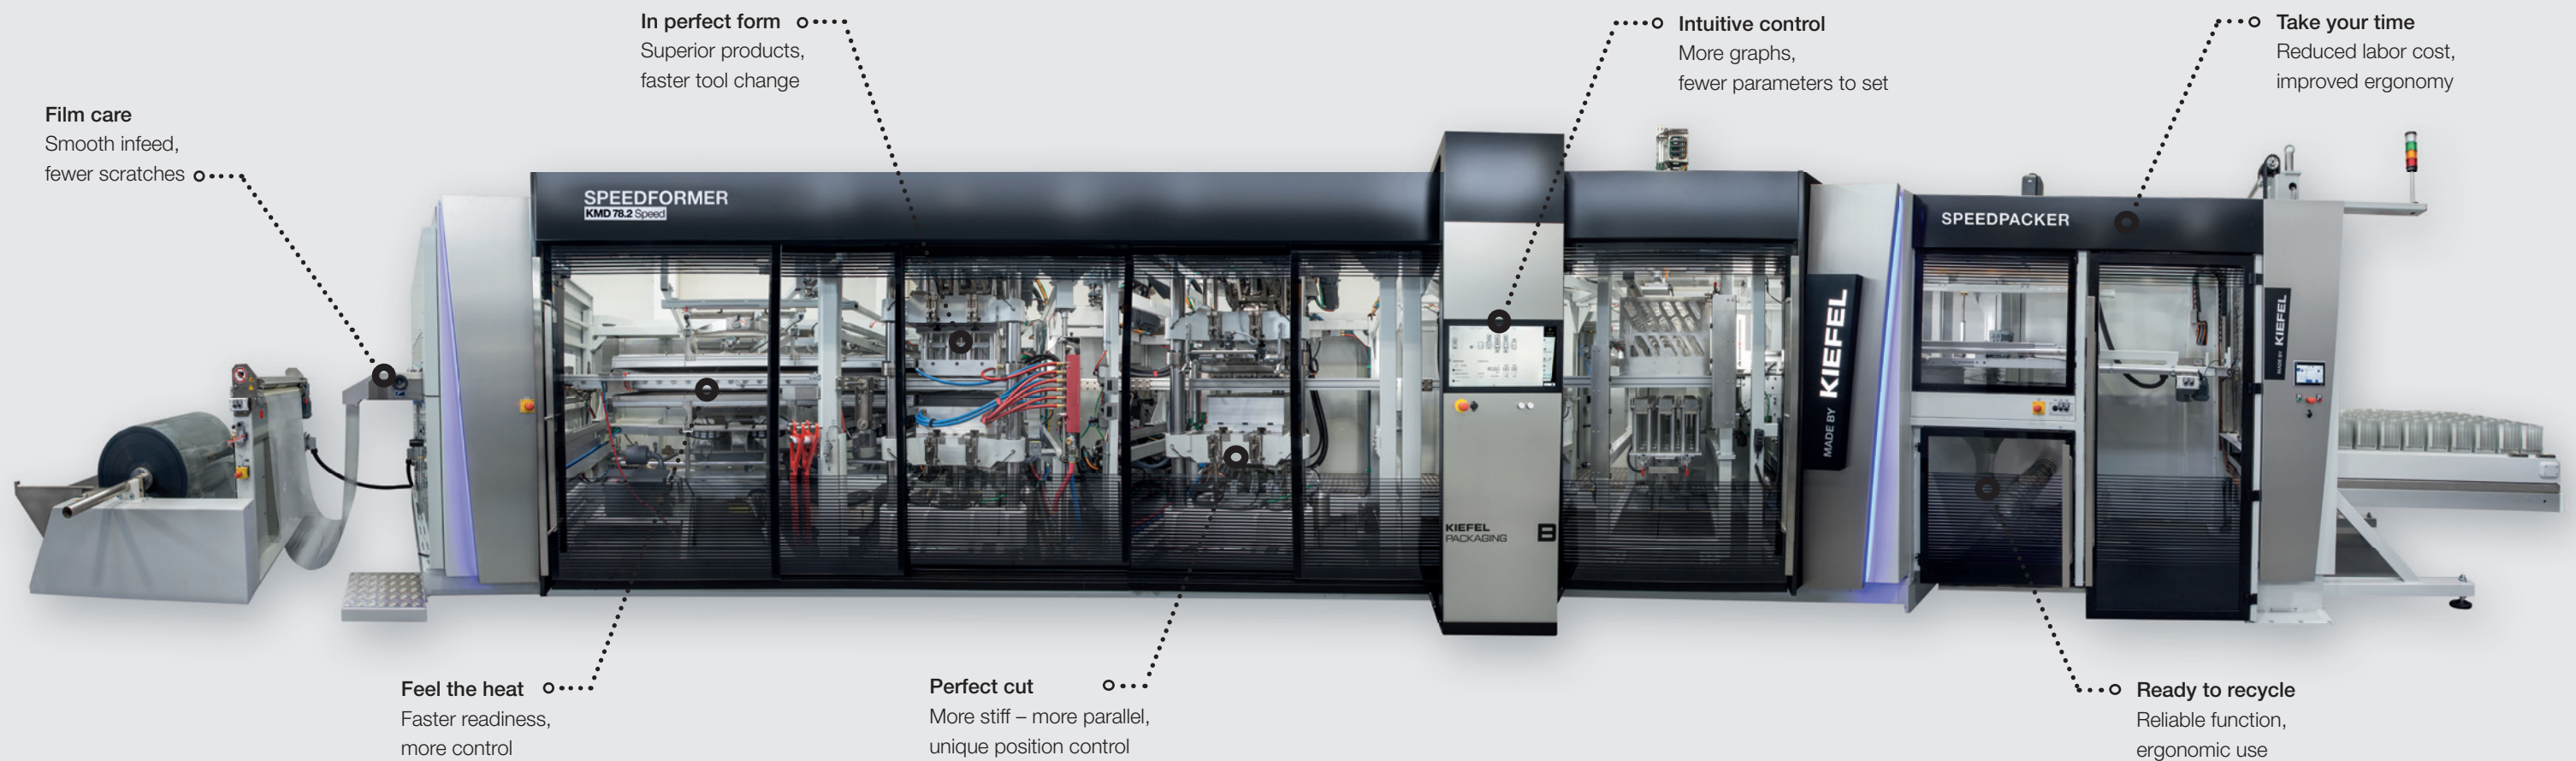

Smart lubrication, longevity and sustainability

Technical data	KMD 64.2 Speed	KMD 78.2 Speed
Maximum forming area	620 x 470 mm	760 x 580 mm
Maximum tool dimensions	640 x 490 mm	780 x 600 mm
Maximum tool weight per table	250 kg	400 kg
Maximum height of formed part above film level	120 mm	120 mm
Maximum height of formed part below film level	120 mm	120 mm
Maximum film width	670 mm	810 mm
Maximum production speed	50 cycles/min (BFS-mode: 45 cycles/min)	50 cycles/min (BFS-mode: 45 cycles/min)

SPEEDFORMER
KMD 64.2 SPEED
KMD 78.2 SPEED

Improve your production performance

Benefit from the new generation Speedformer KMD 64.2 Speed and KMD 78.2 Speed. The innovative machine series better meets your production needs by enabling tailor-made configuration with proven modules like up-, down-, tip- and pick&place stacking.

Kiefel Packaging is your reliable partner for turnkey solutions:
First class thermoforming equipment – cost saving automation – premium steel-rule cutting tools

-  **Performance and process control**
Optimized forming, better cutting, smoother production
-  **Production availability**
Faster and easier tool change, quicker heater production readiness
-  **Efficiency and sustainability**
More heating power, less consumption, smart lubrication system
-  **Easy operation and maintenance**
New HMI generation incl. operation support, reduced input parameters, guided maintenance system

Kiefel driving digital – KMI 2.0

Immerse yourself in the world of thermoforming 2.0 with the all new machine interface generation KMI 2.0! Its intuitive machine operation will simplify your thermoforming processes and assist you in various ways: Short initial training time, fast recipe optimization, quick error handling and a guided maintenance system.

Dashboard – all important information at a glance

The new simplicity – less input parameters and more graphs
