

SPEEDSTACKER AUTOMATION

Kiefel Speedstacker

Pick up the future

The new Speedstacker impresses with fully automatic stacking and packing. It sets new standards in user-friendliness through innovation - the fastest ergonomic format change.

The Speedstacker combines the individual disciplines in any kind of automation at the highest quality and performance.

Kiefel Speedstacker – Pick up the future

Speed and Performance

Optimized movements and drives for reliable transfer of the products – packing into boxes possible

Fast and easy change of format parts

Intelligent systems for efficient and ergonomic format change
Improved accessibility further reduces changeover time

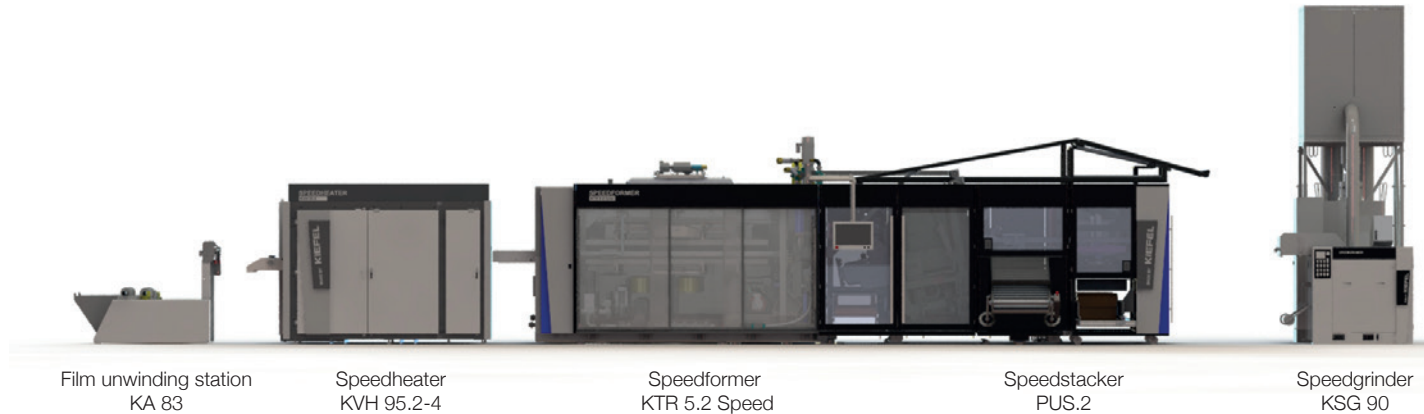

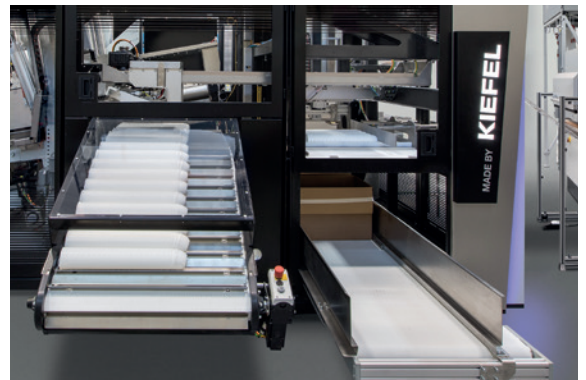

On The Fly – optimized product transfer

Processing of real-time signals for guaranteed maximum cycle times and gentle machine movement

Your benefits

- Fast Stacking and Packaging Unit
- Operator-friendly HMI
- Developed for the new KTR Series
Increasing the maximum product height
For round and non-round articles
- More space for maintenance
- Ergonomic design
- Quick change of format parts
- One model – One solution

Technical data

Max. Cycles / Stacks	50 per minute / 25 per minute
Article height / Stack length	25 – 200 mm / Ø 37 – 150 mm
Format changeover time	< 1h
Box dimensions	min. 500 x 340 x 210 mm (h x w x d) max. 800 x 800 x 600 mm (h x w x d)
Minimum stacking area	520 x 300 mm
Maximum stacking area	815 x 550 mm
