

Main benefits at a glance

Process and production
reliability

Risk mitigation

Optimized operating
expenses

Enhanced project
implementation

Lifetime excellence

Access to decades of
experience and competence

1945

Founding of
the company

9,500

Machines and generators
operating on all continents

**300
MILLION**

Ostomy pouches produced
every year on Kiefel machines

**5
BILLION**

IV, nutrition and
CAPD-bags
produced every
year on Kiefel
machines

**700
MILLION**

Blood bags and blood filters
produced every year on Kiefel
machines

**KIEFEL
TECHNOLOGIES**

A Member of Brückner Group

**SPECIAL
SERVICES
FOR MEDICAL &
PHARMA**

DEVELOPMENT

RESEARCH & PRODUCT DEVELOPMENT

Product design: functionality review
Material analysis and consultancy
Sample bag production
Product quality testing
Innovative application of technologies

Driving your Performance

at any point of your product development & production phase

PROCESS

Functional design studies
Holistic process consultancy
Evaluation and testing of special process steps
Particle matter analysis
Fabrication of test set-up and pilot plants – scalable processes
Product design for ease of manufacturing and assembly

EQUIPMENT

MACHINERY

Tailor made solutions
Execution of automation levels as per customers demand
Industry 4.0

Machine installation and commissioning
Support during ramp-up phase
Validation and qualification

START-UP

PRODUCTION

TRAINING

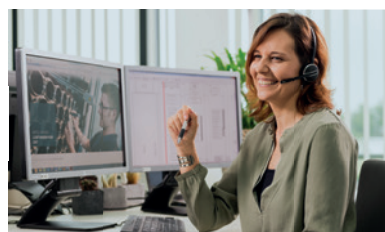

In-depth process and machinery training
Specific welding courses
E-learning platform

Maintenance programs, e.g. preventive servicing
Production analysis
Remote support
Modifications and upgrades

MAINTENANCE

24/7 helpline
Worry-free service agreements
Ease of spare parts sourcing via E-portal
Production assistance

SUPPORT

Services available upon request.
