

UPGRADES & RETROFITS

Schedulable retrofit of the (PLC) control unit

Safe your production!

The B&R control system in your KMD 52 and KMD 75 machines is obsolete. The components are no longer available.

Attempting to repair the controller in the event of a sudden failure of the control is time-consuming or impossible and will lead weeks of machine downtime. A minimum delivery time of 25 weeks is to be expected for modification.

Therefore, we recommend you, this plannable modification of your machine. The KIEFEL modification is based on new, available technology.

We have the solution!

Upgrade to benefit from
the advantages!

[Learn more](#)

Schedulable retrofit of the control unit

Requirements

- mbConnect remote maintenance (mbConnect MDH871; also available as a retrofit)
