# NATUREFORMER KFL 90.1

## High-end fiber lids & portion cups production

- Best productivity per square meter with minimal footprint
- Integrated undercut forming and hot-pressing in one station only
- Lowest energy consumption due to Kiefel Steam Flow technology and pre-pressing station
- Separation of forming and trimming allows maximised product output
- Standalone system with one operator per system

## Technical Data

Maximum forming area	900 x 700 mm
Maximum height of formed product	40 mm
Pressing force	450 kN
Production speed	20 punching cycles / minute
Footprint	15 x 9 m
